

Putting it All Together

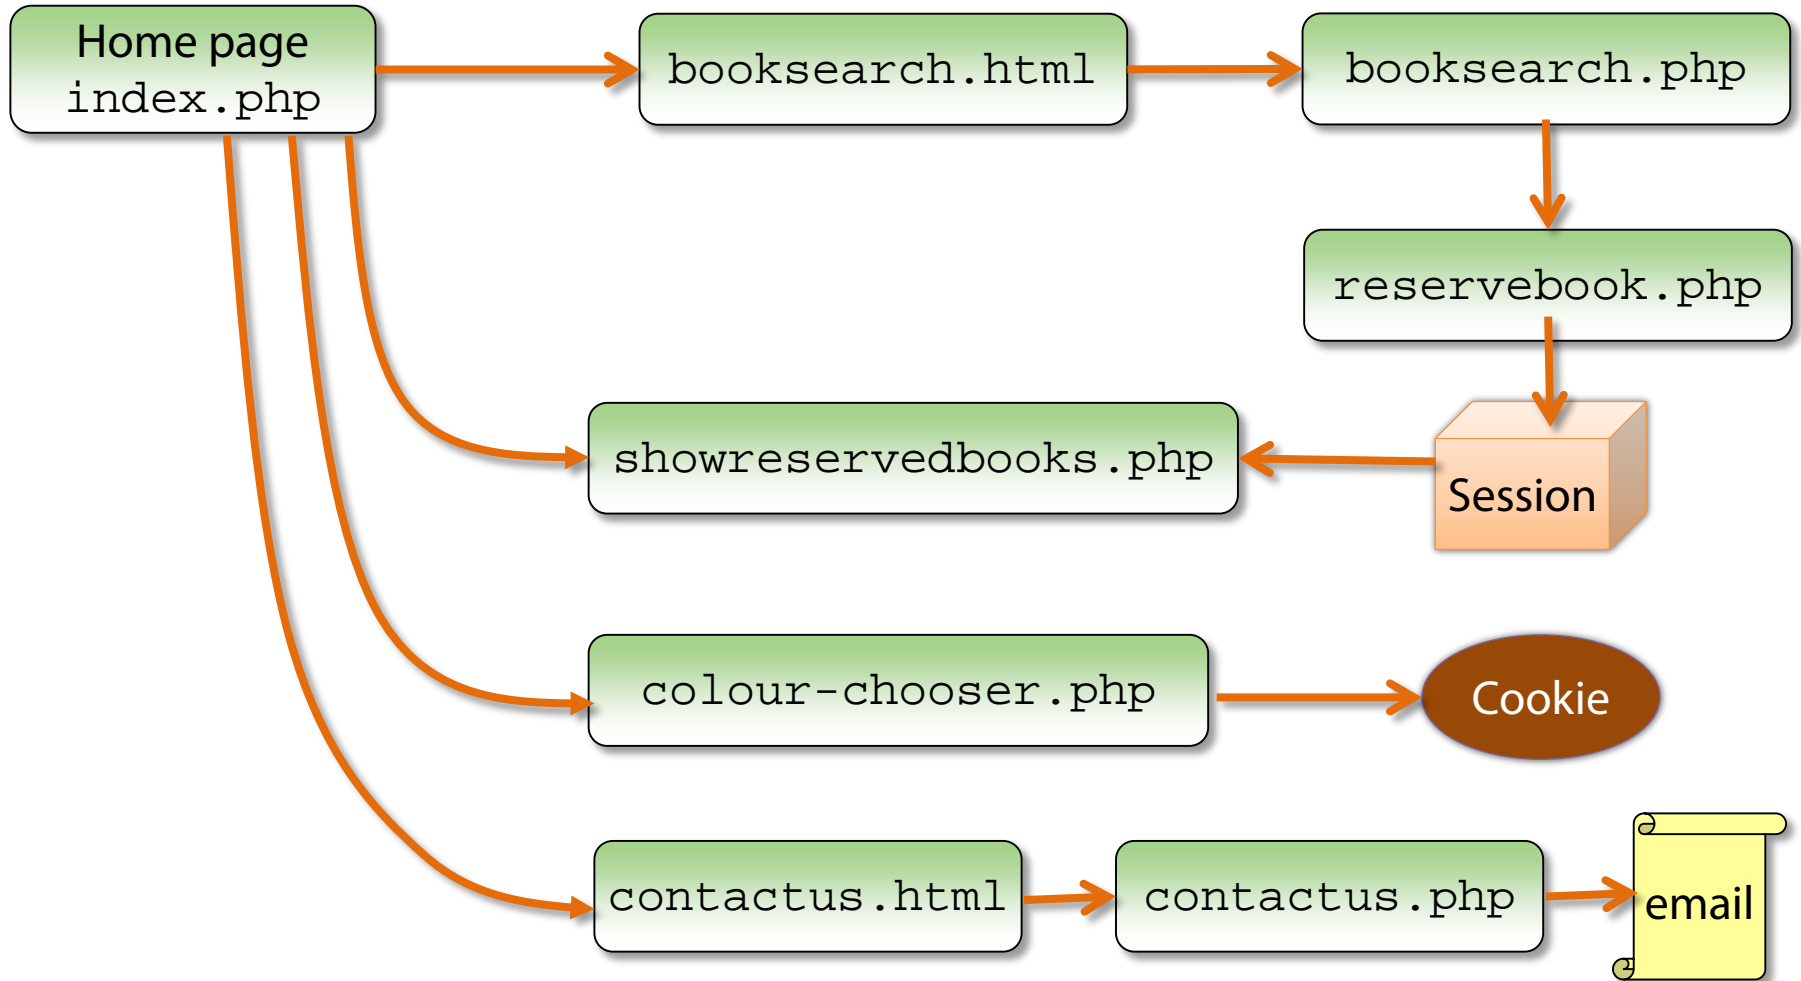

Lesson Objectives

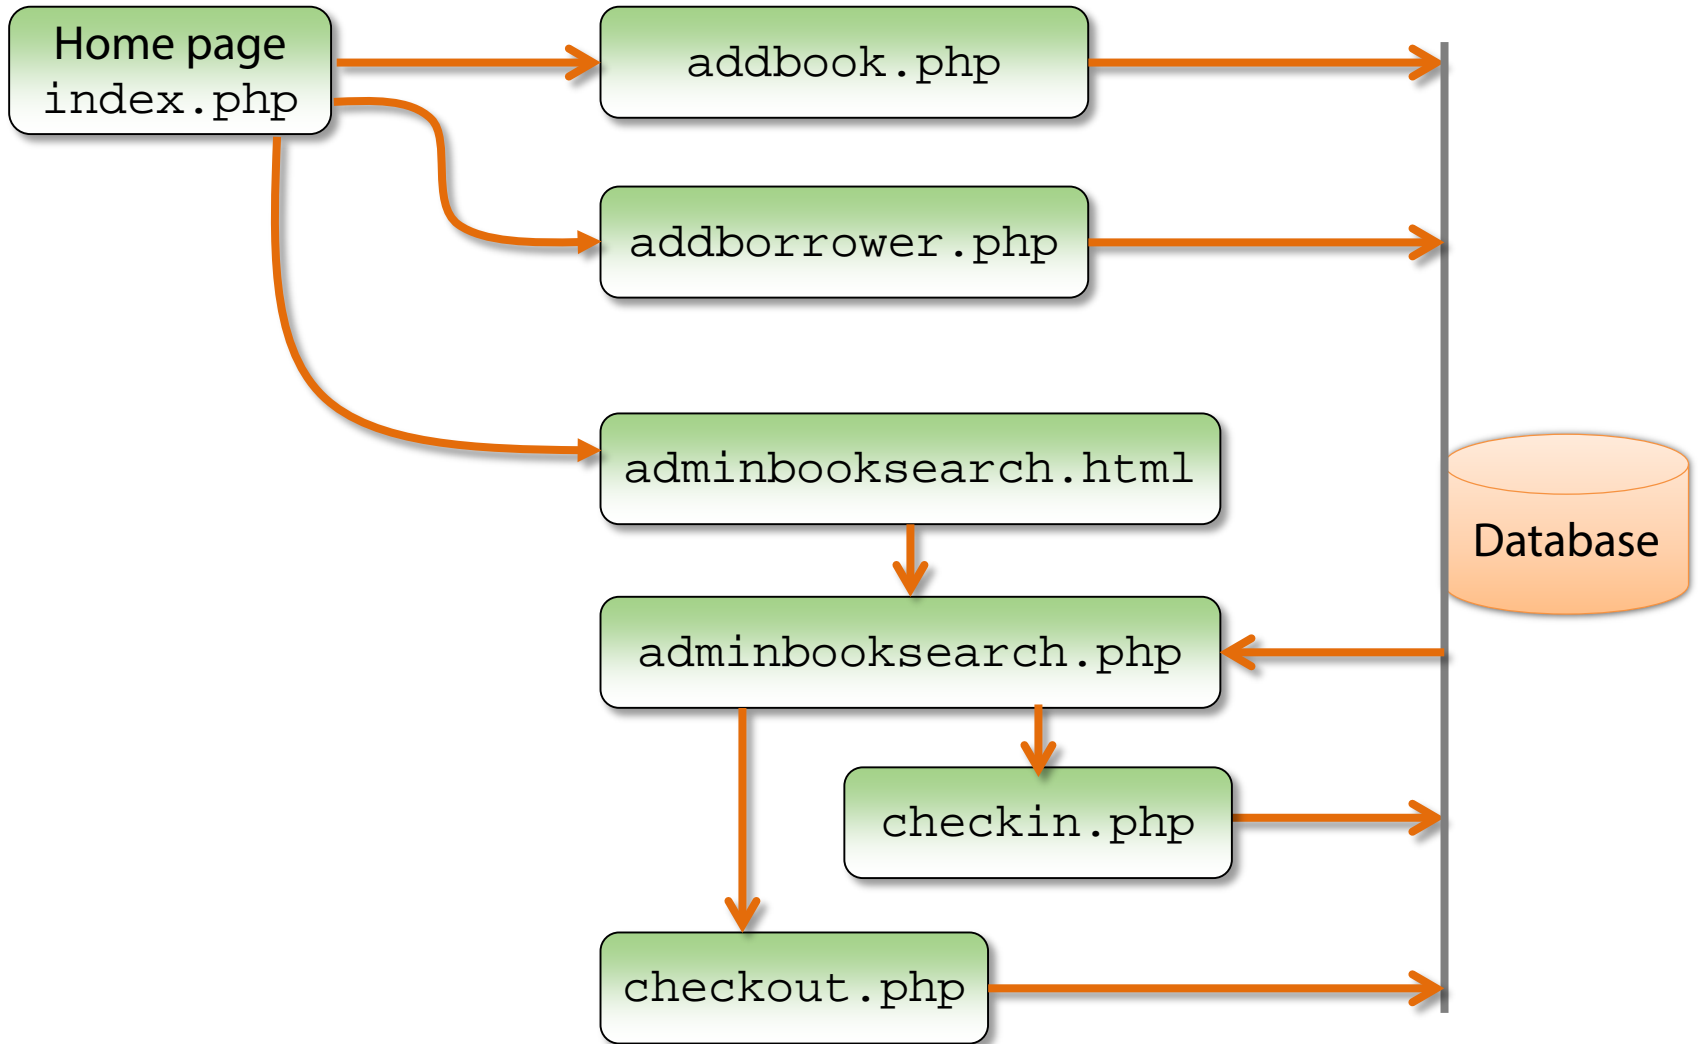

- In this lesson we'll bring all our technologies together to build a complete web site for the library
 - Customer site
 - Administrative site
- **Site structure and page transitions**
- **Demonstrations**
- **Code walk-throughs**

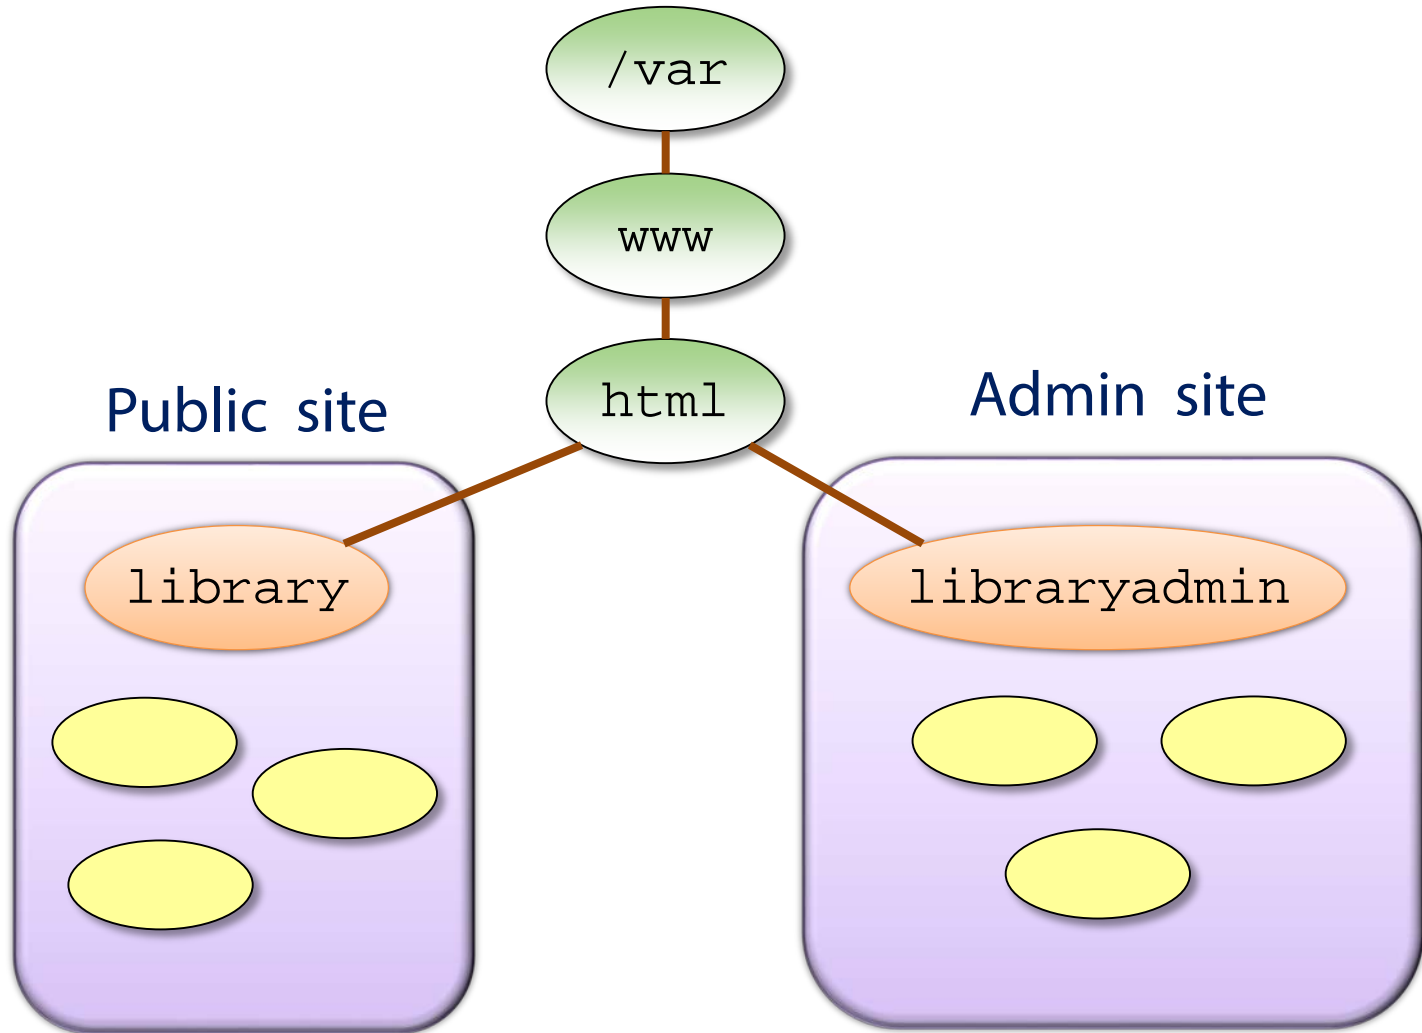

Public Site

Administrative Site

Folder Structure

Lesson Summary

- **We have examined the pages and code for our complete library site**
 - Public-facing pages
 - Private (admin) pages

Coming up in Lesson 10:

Staying Safe

Defending against SQL Injection and other attacks

Setting up a Linux firewall

Backing up the database
